

Curriculum Vitae

Strohmeier Flora

CURRENT POSITION

Name of company

Job position

ÖBB Holding GmbH (Austrian Federal Railways) Programme Manager R&D | EU-RAIL

PROFESSIONAL BACKGROUND

Flora Strohmeier is working in the department of the CTO of ÖBB, where the coordination of the EU-RAIL is taking place. In this strategic position, the development and management of different projects of strategic importance for ÖBB takes place. In the previous role, still in the same department of ÖBB-Holding AG, she has been coordinating technical issues within the European Harmonisation and Interoperability process.

In her prior positions in the municipal utility company and a consultancy company, she was involved in research and development projects over the whole project life cycle, both in the European Framework (FP7, H2020) as well as national projects.

She has an interdisciplinary view on the transport sector mainly from public transport, resulting from work experience and education including knowledge on the innovation process and project management.

EDUCATION AND TRAININGS:

Flora Strohmeier holds a Bachelor Degree in Environmental Sciences and Ecological Engineering from the University of Applied Life Sciences in Vienna and a Master Degree in Spatial Planning from the University of Technology in Vienna. As part of the Erasmus Programme, she studies at the University of Technology in Madrid (UPM) for one year and completed additional courses from civil engineering with the focus of transport planning.
